

I've been fortunate to call Bow Mar home for the majority of the last 25 years and have the unique lens of experiencing the neighborhood through different stages of life: first as an adolescent when my family moved here in 1998, then as a young adult when my husband and I bought our home in 2017 and now as a mother to two young boys. What initially drew us to the neighborhood years ago continues to attract us all here today- its sense of community.

Professionally I provide corporate real estate advisory to users of commercial real estate and represent some of the world's largest corporations. Day to day, I navigate complex negotiations and develop innovative strategies to successfully advocate for my clients. In this capacity I've executed over \$1BB in transaction volume.

Currently I believe our neighborhood grapples with division, but I'm confident that with effective communication and transparency we can bridge this gap, enabling us to unite and pursue shared objectives. If elected to the Board of Trustees, I will contribute my efforts toward: maintaining the culture of Bow Mar, continuing to focus on ways to improve our lifestyle while increasing property values and prioritizing safety and security. In essence, I believe in thoughtful and conservative growth that respects our traditions while embracing opportunities and challenges that lie ahead.

My commitment to the neighborhood is to provide leadership, dedication, and unwavering commitment to our community's values. I will work diligently to ensure our neighborhood continues to thrive as a place where tradition, sustainable growth and fiscal responsibility exist harmoniously. I appreciate all the longtime residents that have made this neighborhood what it is today, and It's time for me to give back to a place that has given us all so much. With that, I ask for your support in running for Trustee.
